

USER'S TASK FLOW

User is having a hard time catching up with the workloads during online classes. Additionally, user's parents are adding tasks other than school works.

At the moment, user is looking for an app to that would remind them for their tasks and would give them the feel of achieving something aside from accomplishing the task.

USER'S TASK FLOW

User wants to check the tasks done and see milestones.

Click
COMPLETED

The tasks completed
will be viewed

Click
MILESTONE

Click
BACK

The milestone are stickers and templates given to users who have achieved certain milestones *more like awards*, which they can use to improve user's experience.
